"The bootleggers might as well know I am here and that they've got to go out of business. It isn't a matter of prohibition; it's law enforcement, and the law is going to be obeyed."

Mr. Yellowley said he had taken steps to "bottle up" the Pacific Coast, as he asserted, he had closed the Athantic Coast and Mexican borders to roin runners. He will rely on coast guard cutters, whose crews will carry Army rifles, he said. Every suspicious craft will be overhauled and searched, according to his plan.

He announced that the coast guard men would be taught marksmanship by marines at the Fort Frederick Funston rifler range. With a similar system he drove Bermuda smugglers from the Atlantic Coast.

CHURCHES IN MOUR

Edifices of Diocese Will Remain Drapel and Gold Until New Pope Is Select

Roman Catholic churches in Southern California were draped in black and gold yesterday, inside and out, in mourning for Pope Benedict XV. The emblems of mourning are to remain in place until the selection of a new Pope is announced, according to instructions issued to all priests of the diocese of Monterey and Los Angeles by the chancellor secretary John Cawley.

Mass will be celebrated in all churches under the jurisdiction of Rt. Rev. John J. Each and every one of these national favorites will appear in the flesh, without mechanical aid, in the same program. Unlike the artists of the opera or concert stage, their appearance before the public is a rarity, for though they have all had experience as concert artists, or on the stage, they have become even more famous through their Victor records. Unusual also is the personal appearance on one program of eig's Victor artists. The program is given in English throughout, and has been described by one critic as "two delightful hours of Music, Mirth and Melody."

This Is Not a "Tone Test," but the Personal Appearance of the Artists Themselves. No Phonograph Will Be Used!

Government Having Diffi culties Wording Note to Reparations Commission

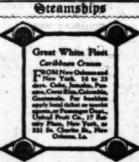

BERLIN, Jan. 23.—Germany's answer to the Allies will be sent off on Thursday, allowing forty-eight hours' margin for it to arrive before the expiration of the fourteen-day time limit, January '27, according to the Wirth government's present plans. The final text will be drafted and edited on Wednesday. Four successive tentative drafts are being worked on, indicating the difficulty the Wirth government is having in formulating an answer to the reparations commission on un-

ing the reparation budget, which in turn is dependent on whether the reparations commission grants Germany a moratorium or not. BANKS WILL MERGE.

ment-houses to provide homes for 225,000 persons in New York, is said to have the requisite backing of union labor as well as big insurance companies.

Mr. Untermyer is counsel for the Lockwood legislative committee, which has been probing the housing problem. It is estimated the present facilities are inadequate to the extent that nearly 500,000 persons are inadequately provided for in New York.

Mr. Untermyer's plan would make provision for 45,000 families, to whom apartments would be rented at the rate of \$8 a room.

no warrant, so they could not hold him.

According to the authorities here, Hastings, who has been a resident of Seattle for the past two years, and who has conducted a brokerage business in the city, was released Saturday on the word of H. J. Harvey, an attorney in the offices occupied by Hastings, that he would produce Hastings this morning. Investigation today, however, failed to disclose—the whereabouts of the broker.

Dispatches from Fargo, where Hastings had been vice-president of the bank, stated he was charged with placing funds of the bank in the hands of the Nonpartiann League.

Of this piano she says: "THE KNABE is a constant stimulus to me in my work. It is the perfection of an art in itself. I find in it a tone quality that enhances the inherent beauty of all ballet music."

Two Things About the Vacuum Cleaner_

FIRST, it will deliver all the convenience and comfort claimed for it—provided you buy a standard make such as the Premier.

Second, the scope and utility of your cleaner, as well as other appliances, are dependent upon the quality and completeness of the original electrical installation. And that in turn depends upon the integrity and competence of the electrical contractor who does the work.

'check" mark of the Pacific States Electric Company, which means that it has been tested, passed and certified as standard, and that the dealer or contractor from whom you buy it is competent and responsible.

This "check" mark, which appears on a complete line of electrical materials and appliances, selected from the markets of the world. is, therefore, a double safeguard for the electrical consumer. It identifies standard, reliable materials and appliances, which are handled by qualified electrical contractors and dealers.

ne will enjoy our new booklet "The Electrical low for Householders" which lists some of these undard maserials and applicances and describes it use in the progress of a typical day in an strifted home. It may be obtained free from any new actor or dealer displaying this soal.

## IRREGULARITY IN STOCKS.

Every Evidence That Waiting Situation Has Been Brought About in Market.

BY FRANKLIN A. SPRAGUE. [EXCLUSIVE DISPATCH.]

NEW YORK, Jan. 23. — The action of today's stock market was in decided contrast to the closing days of last week. Irregularity prevailed throughout the session and changes were for the most part represented in fractions.

Furthermore the volume was not large and there was very evidence that something of a waiting situation had been brought about. Other financial markets were also without any degree of buoyancy. The foreign exchanges moved within narrow limits; an early rise of prices in the grain market tailed to be maintained, and cotton was distinctly heavy. The bond market also marked time, except for a continuation of interest in the local traction issues, which followed the optimistic statement of Frank Hedley, made late Friday afternoon, and the French issues were under pressure in anticipation of competition with the Department of the Seine offering of \$25,000,000 distributed to dealers today by the syndicate handling the issue.

## When they Threw Goods Overboard

Every person who has occasion to receive or ship mer-chandise that travels all or part of the way by water is liable for what is called "general average." This is a phase of ancient maritime law which is still in full force. Quoting from an ancient authority:

"The Rodian law provides that if in order to lighten a ship, merchandise is thrown over-board, that which was given for all shall be replaced by the contribution of all."

In modern times "general average" includes other losses besides those resulting from throwing goods overboard—for instance, damage done by water and steam in extinguishing a fire, damage caused by rough handling in an emergency, damage caused to machinery in attempting to force a vessel off the ground when stranded, and several others.

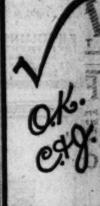

If you have goods arriving by boat, you are responsible a share of this "general average," and you can't get your p until you pay up. By enlisting the service of our marine ance department you will be relieved of all the b tape, as well as the expense connected with "general

Authorized and to be presently issued and outstanding \$2,500,000. Sinking fund payments commence January 1, 1926. Company agrees to pay Normal Payeral Income Tax, so far as lawful, not exceeding 2 per cent.

THE BANK OF CALIFORNIA, NATIONAL ASSOCIATION, SAN FRANCISCO, Trustee

A Direct Obligation of Theo. H. Davies & Company, Limited, a Corporation organized under the Laws of the Territory of Hawaii, an Old-Established Business of Sound Growth and of Proved Success.

Reference is here made to a letter given us by Mr. E. H. Wodehouse, Managing Director of the Company, which be summarize as follows:

BUSINESS Company is the outgrowth of a partnership started in 1845 under the style of Starkey. Janion & Co. Early activiincluded a merchandise business; trading in cattle, hides and tallow; operation of sailing vessels. In 1863 the firm became interested in augar. In 1868, Mr. Theo Davies took over business under his own name. This date marks a period of large development. Company secured control of Honolulu Iron Works Company, established 1852, and continued to build its merchandise and sugar business. About 15 years ago, Company became interested in the pine-apple industry, acquiring the Pearl City Fruit Company.

For a small beginning 76 years ago, Company has grown to a business representing an investment of over \$10,000,000.

SECURITY These bonds are secured by pledge of Hawaiian Sugar Corporation stocks having a market or fair value of \$1,750,000; by pledge of other corporation securities, mostly stocks, similarly valued at \$2,-490,491; by other assets not specifically pledged amounting to \$7,402,680, making a total personal property value of \$11,643,171 to support a total loan of \$2,500,000. EARNINGS Net earnings, after all charges including taxes, for five years ended December 31, 1920, were at the annual rate of \$862,836, which is over 4½ times maximum interest charges of \$175,000. For the ten-year period, net earnings were at the annual rate of \$626,212.

nual rate of \$626,212.

Earnings are largely derived from: (1) commissions received from sugar plantations for which Company acts as agent; (2) wholesal merchandise business in groceries, dry goods as hardware; (3) operation of Honolulu Iron Work Company; (4) a general insurance business; and (5) dividends received on stocks held.

SINKING FUND Commencing January I, 1926, Company will pay \$200,000 annually into a Sinking Fund, which is sufficient to retire practically the entire debt by maturity.

MANAGEMENT Seventy-six years of successful operation indicate policies. Senior officers have been active in Company's management for many years and are thoroughly experienced. Ownership of Company is vested in residents of Hawaii and mainland of United States, among whom are Mesers Castle & Cooke, Limited, and the Matson Navigation Company.

Circulars completely descriptive of Company and its activi-ties and showing detailed schedule of collateral, earning record and recent balance sheet will be mailed on request.

Logal issuance of bonds and all matters perialning thereto subject to approval of Meaors. Philobury, Medison & Sourc. San Frenches.

Bonds offered when, as and if issued and received by us. Tamperary interest-bearing certificates secured by funds deposited with Trustee will be presently available.

UNICIPAL Bonds are favored by many conservative investors. Among the largest holders of Municipal Bonds are savings banks, insurance companies, trustees of estates, and other institutional and individual investors who require not only safety of principal, but whose large incomes demand tax-exempt securities. To the investor who is subject to the higher rates of income taxa-

tion, the yield of Municipal Bonds is equivalent to or greater than the returns from taxable securities. Among our Municipal offerings (tax exempt) are the following:

HE Pacific States Lumber Company is the successor by change of name to the Coos Bay Lumber Company, which Company and its predecessors have owned and operated large tracts of timber on the Pacific Coast for the past fourteen years. Every condition is favorable to this Company for complete and profitable lumber operations through excellent logging facilities; modernly equipped manufacturing plants adjacent to its timber tracts connected by the Company's own railroad with timber resources of more than eight billion feet; and with cheap water transportation afforded by ships owned by the Company which carry the lumber to the finishing and distributing plant at Bay Point, on an arm of San Francisco Bay, ideally located as a shipping base for world-wide markets.

From letter of Mr. William Denman, Chairman of Board of Directors, who has been in active control of operation of the properties for the last three years, we summarize as follows:

SECURITY: These First Mortgage Bonds will be secured, in the opinion of counsel, by an absolute first mortgage on real estate on which is standing over eight billion feet of Douglas Fir, Port Orford Cedar and minor woods of which fir comprises 84%, Port Orford Cedar 12% and minor woods 4%, as estimated by your cruisers, and valued in the aggregate at approximately \$19,000,000. In addition, these Bonds will be secured by a first mortgage on the Company's mills, railroads, steamships and certain other physical property appraised at the depreciated value of over \$5,500,000, the total value of the property thus mort-gaged being in excess of \$24,000,000. Upon completion of this financing the Company, in addition to property under the mortgage, will have net working capital of not less than \$2,000,000.

SINKING FUND: The Mortgage provides for a Sinking Fund [effective January 1, 1925], obligating the Company to pay to the Trustee, in advance of cutting, the sum of \$1.875 per 1,000 feet ratably increased up to \$2.00 per 1,000 feet cut when and if the entire \$8,000,000 Bonds have been issued.
Timber may be sold and released from the
lien of the Mortgage upon payment to the
Sinking Fund of not less than \$1.75 per 2,000 feet of operating timber sold and \$1.00 per 1,000 feet of non-operating timber sold.

All Sinking Fund payments shall be used only for retirement of First Mortgage Bonds either by purchase in the market at not more than the redemption price for each respective series or by call at redemption price.

EARNINGS: The net earnings of the Com-pany for the five-year period ending Decem-ber 31, 1921, after deducting all taxes [in-cluding Federal Income Taxes and taxes on non-operating property] and available for depreciation and bond principal and interest payment have aggregated \$5,028,519.13. Taxes and other carrying charges on non-operating property which might properly have been capitalized amounted during this have been capitalized amounted during this period to \$589,860.76. Net earnings adjusted in respect of such carrying charges have thus aggregated \$5,618,379.89 or an annual average of \$1,123,675.98. The maximum annual interest charge on the First Mortgage Bonds amounts to \$586,400.

MANAGEMENT: The operating management of the Company is in the hands of practical timber men and lumber manufacturers with long experience. Through a voting trust, the right to elect a majority of the Board of Directors of the Company so long as the First Mortgage Bonds remain outstanding is vested in the nominees of Halsey, Stuart & Co., Inc., and Second Ward Securities Company Ward Securities Company.

These bonds are offered for delivery when, as and if issued and received by us, and subject to approval of council. To rinterim receipts later exchangeable for definite bonds, will be easily for delivery on or about January 30, 1923. All are official or are based on information which we regard as reliable, and, while we do not guarantee them, they are the we have acted in the purchase of this security.

Contained The lower was offered to be bounded. The lower was offered to the second and provided the second and Although the 5-cent loaf of bread has returned, after an absence of five years, to the family larder in New York, the Los Angeles householder will be unable to reap a stmilar benefit in this matter of cheap bread units. Because of a State regulation, locat bakers suf they can enly produce one and one and one-haif-pound loaves. The beent bread that is now being sold in the East is not a pound loaf and, in all probability, the Los Angeles housewite who pays the current local retail price of 16 cents for a pound loaf, in getting her bread just as cheap, as far as actual weight goes. Despite these discrepancies in weight, which make the price reduction somewhat meaningless, eastern observers regard the 5-cent loaf as a good symbol for 1922. According to one: "It augurs for good sound progress in the bringing of retail prices into line with the level of wholesale prices."

NOVEL LABOR MART.

Where Non York Housestree Bid for Domestic Service.

On the east side of Rarlem there is an epen-air labor market. Situated on that section of Fifth avenue, between One Hundred and Thirtsenth and One Hundred and Thirtsenth and One Hundred and Fourteenth streets, it is patronised chiefly by methers of the neighborhood, which is one of the most congested in the city.

This market or employment bureau practically runs itself. It opens usually at 7:39 a.m. and is likely to close at any time, depending on the wants of the neighborhood. The workers—they are for the most part colored women—assemble on the sidewalk, where they invite bids to domestic service from mothers and deughters of the neighborhood. Most of these colored women come from Harlem's "Little Artica" in the vicinity of One Hundred and Thirty-fifth street, although others come from East Ninety-nint street.

Ninety-ninth street.

Few of these women willspree to work for more than
a day. Some offer their services for half a day or for a
tours; others will contract for
a couple of hours work. The
trand about while bids are
miade for their services, and
some of them succeed in drivning pretty hard bargains.

Yet the women of the neighborhood have found the
"bureau" a great help on more
than one occasion. Most of
these mothers and flat dweller

Occasionally a colored man makes his appearance at the mart, but that is rather the exception than the rule. The kind of work he wants is often light housekeeping. — [New York Times.

NOVEL BRIDGE USED CROSSING THE USK.

A novel kind of bridge for transporting pedestrians and vehicles across a river, without interfering in any way with the passage of full-rigged ocean-going shipping is in operation at the town of Newport. Eng., on the river Uak, four miles from its junction with the Severa. On account of the steepness of the banks, the great rise and fall of the tides, the length of the span, and the height of headway needed, any ordinary kind of bridge, and therefore this special kind called a "transported bridge," shows with a full-page illustration in the January Popular Mechanics Magazine, was erected. The stationary members of the bridge consist of a pair

the January Popular Mechanics Magazine, was erected.
The stationary members of the bridge consist of a pair of supporting towers, 242 feer high, on each bank of the river. These carry two trussed sirders sixteen feed deep and twenty-six feet from center to center, across the span of 645 feet. The total clearance from high water level to the underside of the span is 177 feet. The horizontal trussed girders are tied together and braced as in any ordinary bridge span, and their bettom chords form a track, in sanheaded for fitten wheels or either side of its web. These wheels are carried on steel brackets which are part of a large traveling frame, 104 feet long, which forms the means of transporting a suspended platform or earrier. The traveling frame is propelled by a continuous cable driven by a drum in connection with two thirty-five horse-power electric motors in the power house near one end of the bridge.

Reward in Prospect.

"I'm going to lose my favore bus conductor," said a traveier on the Fifth avenue line,
and I'm glad of it. He's geting a better job with a Wallirreet bank. For months he's
een very gentle in helpiog an
id man on and off the busow the old man, whose son if
ashier of the bank, has told his
on about the conductor's kindess, and has persuaded him to
fier the conductor the first vaarcy in the bank's force. His
graular passengers will miss
im, but we're glad he's betterig himself,"—[New York Eveing Post.

"Times" Seeks Fairest Maid in Southland to Receive Valuable Cash Prize for Charms.

CENTENARIAN DIES.

ONLY QUALIFICATIONS.

The only qualifications neo

to competition are to be a resident of Southern California or Arizona, to be unmarried and not a professional beauty.

The Times it on this Beauty Quest because it is smoorely destrous of locating the most beautiful girl in the Southwast, and it believes that means in the world. Also The Times is going to get a raft of photographs of pretty girls which will be published from day to day in the dajly issues and the Sunday rotogravure section until the contest ends February 22, and then the eighteen winners' photographs will be reproduced in rotogravure.

For the purposes of the search for beauty the Southwast has been divided into six sones. The judges, who will be art critics of experience, will select the three most beautiful girls in each sone. These will be awarded prizes in cash as follows: First prize, \$500: second, \$100, and third, \$50. That will make eighteen such prizes, for there are six sones.

Then the most beautiful of the most beautiful, that is, the prettiest of the six sone winners, will be awarded the grand prize of \$100 in addition to her sone prize of \$500. And in that way the Southwest's first beauty will be found.

## Soundness—Profit—Safety What more can you ask?

An investment in the Palos Verdes estates offers a greater opportunity, a better chance for profit and a greater guarantee of safety than anything of which we have ever heard. This is a strong statement but we believe your investigation of the facts will convince you of its truth.

## What the Project Is

The Palos Verdes Estates comprise 16,-000 acres of the most desirable land in Southern California, both from a standpoint of location and climate. The property is costing \$5,000,000 - \$312 an acre. The cost of the vast improvements proposed to properly develop it \$30,000,000; or a total of \$35,000,006. On this basis a front foot of land will cost about \$15.00 after deducting onethird the total acreage for parks, streets,

## What Is Offered

There is no land for sale-now. The project must be subscribed to and underwritten in an amount of at least \$15,-000,000 before one dollar is spent on it. Should it be undersubscribed, every dollar's worth of subscriptions paid in, less Trustee's fees, will be paid back. That insures absolute safety. On the other hand, with the project subscribed to, and the vast development work started, what will be the selling price of the land that has cost subscribers, improved, \$15 a front foot? Undoubtedly it will go vastly higher.

## Two Kinds of Investment

The title to the property will be vested clear and free of incumbrance in the Title Insurance and Trust Company of Los Angeles. All subscriptions are payable to that Company and are held in trust until the project is subscribed, at which time the development will start. There are two kinds of subscriptions possible-1st, Convertible Notes and, 2nd, Non-Convertible Notes. The Convertible Notes permit the subscriber to take improved land (at cost price) to the extent of his subscription. The Non-Con-vertible Notes gives the subscriber the remaining net assets and profits as liqui-dated. There is no difference in the cost of the two Notes. The Notes may be" subscribed in any multiple of \$100.00. equal monthly installments.

## **Big Profits Certain**

If the Palos Verdes Project is subscrib to every note holder is a part owner in a \$35,000,000 project where the land fully developed is expected to cost \$15 per front foot. Do you know of any such improved land anywhere in Gre Los Angeles that sells at that figure. Naturally, as soon as the project is subscribed and the spending of \$30,000,000 in improvements is started, the price of the land will jump many times \$15 a entitled to take land at cost or he may take the profits accruing from the public sale of land. Can you imagine what that land will sell for with \$30,000,000 worth of roads, streets, sewers, water, ho-tels, clubs and bungalows built and be-longing to note-holders?

## How to Convince Yourself

The story of Palos Verdes is too great to be told in any single advertisement.'
And so we have established three different points of contact between ourselves and prospective subscribers in order that they may fully convince themselves of the

When it is decided he would incorporate it into municipal ordinance. He would have the vote taken by the women alone. He thinks the women should decide and the men stand by. He will not rest until the spirit of the initiative and referendum and is of vastly more interest and importance than some of the balloting that has been going on under the California laws.

Let the indies have a referendum on their skirts while the men look on, which the men will continue to do.

Artzons, like California, has known a terrific increase in governmental and election costs, due to multiplication of commissions and to the pestitivous plan of permitting any / feeble-minded or evil-minded individual to gather enough signatures to get his particular fad fastened upon the poster-like ballot the voter has been compelled to ecan. An industrial conspress in Phoenix the other day made recommendation of changes of law back to simplicity. It suggested that a constitutional convention be called. There appears to be no especial outery from the stalwart Democracy over this. A few years ago there would have risen an ap-

The accepted beauty of this section may easily be the fairest of all carth's daughters. It is an honest and carnest search. There is no favoritism or advantage. The girl of humblest surroundings may compete with the patricians, so long as she possesses the gift so highly prized of women. The quest will cost The Times some money, but it will be worth while. Some day we may go after intellectual endowment or domestic prowess, but just now it is beauty we are after. If these graces be found in combination so much the better.

It happens in Arisona that a constitutional amendment is as easy to carry as its a referred law. All that is needed in a majority of one belied, this on the bests the particular section, even though not a tenth of the voters had marked the paragraph. A constitutional convention is a bit harder to start, for the subjects to be amended must be stated and placed before the voters in advance. It is probable, however, that some way will be found for even the Democrata are not opposed—that is, excluding the union labor element that so long in Arizona had a large share of influence within the Democratio party.

I An Episcopal bishop says he will have no mere singing of sentimental or popular songs at weddings in his church. The good old processional marches will be permitted, but he will have no brides lurged out at his cathedral to the tune of "Ain't We Got Fun." He intimates that the diverce courts are full of folks who started off with "Oh. Fromise Me" and wound up with "You'd Be Surprised." The music at a wedding ought to be safe and ware and in accordance with the stately coremonial of the church. Unless a wareing is sounded some of the brides are likely to turn to jazz. "It's some job to see that the laws of Los Angeles are obeyed and the breakers thereof are punished." said the Chief of Poikes speaking before the Woman's City Club yesterday afternoon, with Mrs. J. B. Stearns presiding.
"I get lots of letters of advice" he contined, "just yesterday a man wrote to me and asked ma to make the police force 100 per cent Christian. Well, I wish I could and then the millennium would be here. When the ministers make the eity 100 per cent Christian perhaps I can comply with the request. But our, police force is 90 per cent God-fearing, honest man. I've found that out the short time I've been there, but the people seem to have made up their minds unmistakably that they are a bad bunch. They are as good and better than the average. We need the help of you club women. I ask you for it now. We can't work under the condemnation of the citizens."

The Chief then made an earnest plea for permanency in the police force, He then reviewed some of the

## FORTUNES GOING BEGGIN

Photoplay producers ready to pay big sums for stories, but can't get them. One big corporation offers a novel test which is open to any one without charge. Send for the Van Loan Questionnaire and test yourself in your own home.

SHORT time ago a Montana housewife received a handsome check for a motion picture scenario. Six months before she had never had the remotest idea of writing for the screen. She did not seek the opportunity. It was thrust on her. She was literally hunted out by a photoplay corporation which is combing the country for men and women with story-telling ability.

This single incident gives some idea of the desperate situation of the motion-picture companies. With millions of capital to work with. with magnificent mechanical equipment, the industry is in danger of complete paralysis because the publie demands better stories and the number of people who can write those stories is only a handful. It is no longer a case of inviting new writers; the motion-picture industry is literally reaching out in every direction. It offers to every intelligent man and woman-to you-the home test which revealed unsuspected talent in this Montana housewife. And it has a fortune to give you if you succeed.

When I climbed down into the dugout, it was with a trepidation. Lexpected to be greeted with a lideat snari or a wolfish growl. "In a Free-for-all a Pug Wouldn't Last a Minute," Says Walter Miller; "Clip a Wrestler on the Chin and He's Done," Kid McCoy.

Accidentally two men bump each other on the street. One loses his temper, shrills out an uncomplimentary remark and smashes at the other. One is a good wrestler, the other a good boxer, and they are of about equal weight. Now for the question in point-who would the challenge of Paul Prehn, the win the scrap? Or, to put the clash on a little better basis, suppose both men agreed to settle it in the squared circle, being tossed into the ring with the command, "Go to it; there are no match is set for Thursday evening, rules and bury your own dead." Bill Essick, manager of the vernon club, has sent contracts to both Charley Gorman and Dal Locker, but it is believed both men will be soild or traded before the start of the season.

Killefer says he will keep the Angels at Elsinore three weeks this spring, and then put on the finishing ing touches with a week on a grass diamend in these parts.

The first half of the season has been productive of some very good basketball. The race has been much closer than last year's at least three teams having a look in on first place. Whittier still has a fighting chance for the champion-ship, and orbing would give the repetition of their football victory. The fight for second honors is also a warm one, Pomena and Caltek running neek and neck. When these two teams meet next month at Fasadena a great battle should result, especially as the Engineers are desirous of wiping out the memory of the 32 to 17 defeat suffered at the hands of the Sagehens in the game at Claremont.

Without Them U.S.C. Would Have Slim Hopes of Beating Oxy in Annual A.A.U. Meet.

BY "CHUCK" WEST.

As track season approaches, there is much speculation as to whether U.S.C.'s cinderpath celebrities will be able to maintain their record of the past half a dozen years and cop the A.A.U. championships. Supporters of the Trojan institution pooh-pooh the idea that Occidental .aight come to the front ith a batch of blue ribbons and turn the trick, while the un-

with a batch of blue ribbons and turn the trick, while the unbiased follower of sport is not so sure.

The contest for honors is almost certain to simpler down to an argument between Occidental and U.R.C., as no other institution within the precincts of the local tranch of the A.A.U. has enough star performers to make a feeble hid for fame. Pomona has Dags and Payme, Rediands has Lloyd Yount and Allen, Caltek has Crissian, and the Southern Branch has one or two promising athletes, but none of these institutions can count on more than a slim share of points.

U.S.C.'s varsity trackstonic couldn't stand in the same class with the Tiger first-string squad, but the addition of a disaby-asortment of freshmen athletes, who will be eligible for the A.A.U. delins, places the Methodics in the first division.

Providing Charils Paddock runs, which is almost taken for granted, the Trolans are sure of five first places. Paddock can win the two sprints without exerting himself much, while Shiller is conceded the dope in the 440. In the high jump U.S.C. has Corey, formerly of Chaffey Union High, who was good abough to make the Olympic team.

Next in line is Tony Spangler, who some declare is going to give Shiller a tough battle in the 440. Spangler has covered the quarter mile in fifty seconds without being pushed, and it seems probable that he could uncork a little more speed if it was necessary. Roy Goodenough is second only to Emmons in the poh vault. Last year Goodenough defeated the U.S.C. vaulter, but isn't expected to repeat this season. The two-mile is conceded to Buster Sloan, the diminutive leather lunged athlete of the Tiger institution, while Louis Chandler is apt to run him a close second. Phil Ellsworth, who can shade two minutes flat in the half mile. has an excellent change of winning this event. Oxy is also expected to run second to Kerr of Huntington Beach in the mile.

Occidental is weak in the weights, but Bud Houser, the Oxnard giant, will take most of the first places in the iron heaving department. Evans of U.S.C. will probably step to the front with a nice bunch of points right here.

[ST A P. Night WIRE]

WASHINGTON, Jan. 23.—Los
Anguise port collections for the
year of 1921 showed a great increase over the previous year. The
total customs collections at the
port were \$1,296,710,50 as against
\$252,260.57 in 1920, or an increase of almost \$500,000.

The axports from the port during 1921 were \$17,859,180 as
against \$18,506,121 but the proportionate showing for the port of
Los Angeles is better than in many
ports in the country. Imports show
a big jump—a gain of \$3,000,000
for the year, the 1921 figures totailing \$11,857,075, as against
\$2,937,326 for 1920.

The month of December showed
progressive growth in customs collected and the movements of
hips. The condensed statement
